SUMMARY

Passionate and results-driven Full Stack Developer with hands-on experience in building dynamic and responsive web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Adept at both frontend and backend development, with a strong focus on clean UI/UX, API integration, and scalable architecture.

WORK EXPERIENCE

MERN Stack Developer Intern, Navikshaa Technologies

May 2025 – Ongoing

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-featured Learning Management System (LMS) with three user roles (Admin, Instructor, Learner), enabling course management, performance tracking, and secure role-based access using JWT authentication.
- Built reusable React components and implemented RESTful APIs in Node.js and Express for efficient client-server interaction, with MongoDB handling scalable data storage and CRUD operations.
- Integrated a WhatsApp-style real-time chat module within the ERP system using Socket.IO, enhancing internal communication and collaboration between employees.
- Improved UI/UX and responsiveness using Tailwind CSS and animations, ensuring a consistent and engaging user experience across all modules.

PROJECTS

Fuel Delivery Booking

Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a Fuel Delivery Booking Platform featuring two dashboards — User (for booking and tracking fuel orders) and Driver (for managing deliveries).
- Implemented JWT-based authentication and role-based authorization for secure access between users and drivers.
- Built a RESTful API for order management, real-time updates, and seamless data flow between frontend and backend.
- Designed a responsive, modern UI using React and Tailwind CSS to ensure smooth user experience across devices.
- Integrated MongoDB database for efficient handling of user details, fuel orders, and delivery records.

Analytics Dashboard

Tech Stack: React.js, Chakra UI, Node.js, MongoDB

- Developed a responsive web analytics dashboard to track metrics like user traffic, bounce rate, and session duration.
- Integrated REST APIs using Axios to fetch real-time data for overview cards, charts, and tables.
- Utilized Chakra UI for clean, accessible, and responsive component design.
- Followed component-driven development to ensure reusability, scalability, and maintainability.

EDUCATION

2021 – 2025	Bachelor's Degree at SRM University - AP	(GPA: 7.52/10.0)
2021	Class 12th Board of Intermediate Education AP	(Marks: 937/1000)
2019	Class 10th Board of Secondary Education AP	(GPA: 8.5/10.0)

SKILLS

Programming	C++, Python.
Database	MongoDB
Web Development	HTML, CSS, Node.js, Express, React.js, Tailwind CSS
Non-Technical Skills	Communication, Dedication, Team Collaboration
